- More advanced
- ➤ Largest Exchange
- > 4 million customers
- > \$6B/week

Betfair Dataset

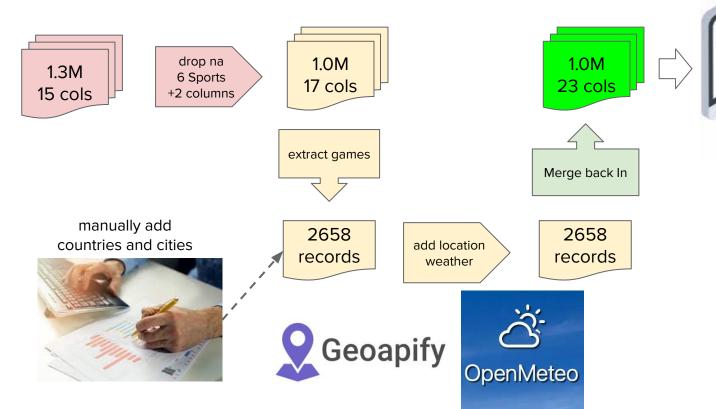

- One Weeks Worth From Early September 2014
- 321 MB uncompressed file with 1.3 Million Data Rows
- 16 Features
- 23 Sports Taking Place Across The Globe

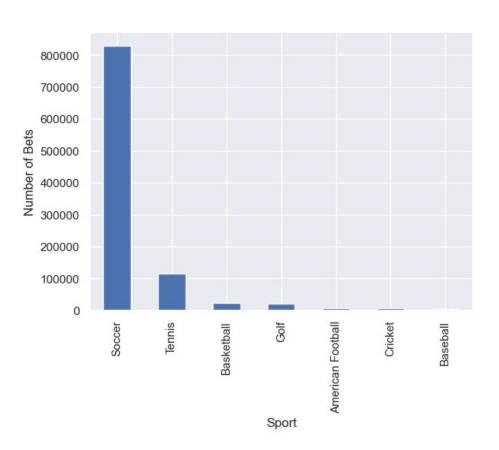

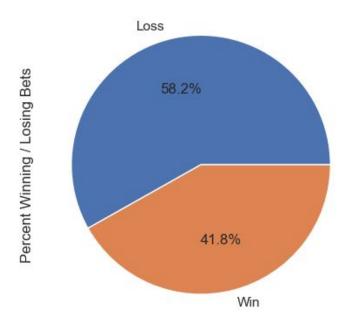

Data Cleaning/Transformation

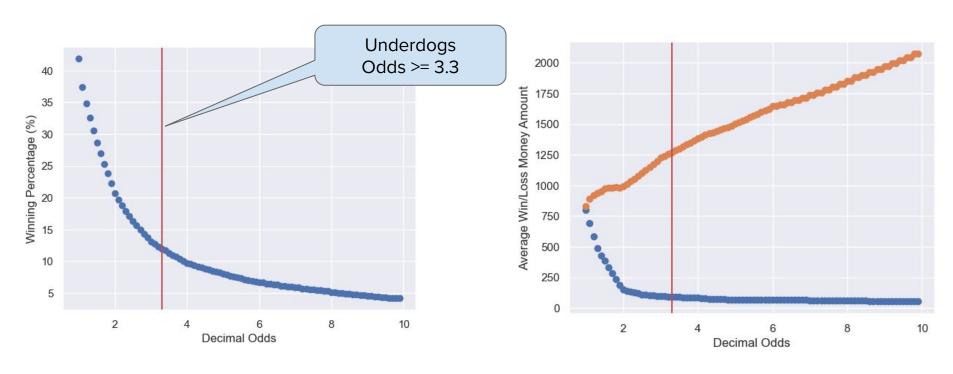

Data Overview

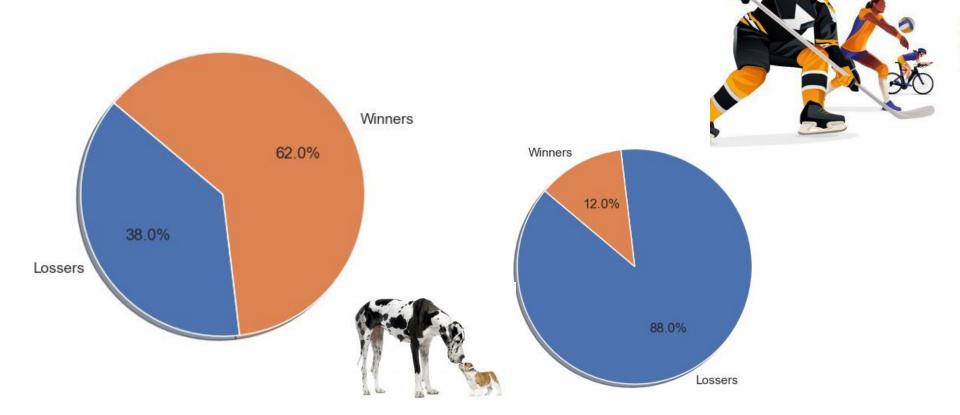

- Number of Games: 2658
- Countries: 79
- Number of Bets: 7.9M
- > Total Money Wagered: \$806M
- Total Money Won: **\$810M**
- > Total Money Loss: \$838M

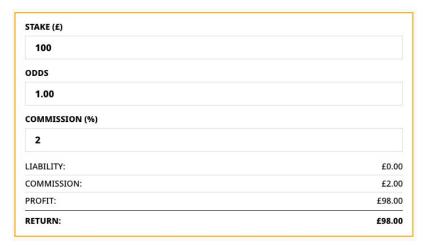

Winning vs Odds

Favorites vs Underdogs (odds > 3.3)

Why Bet On Underdogs?

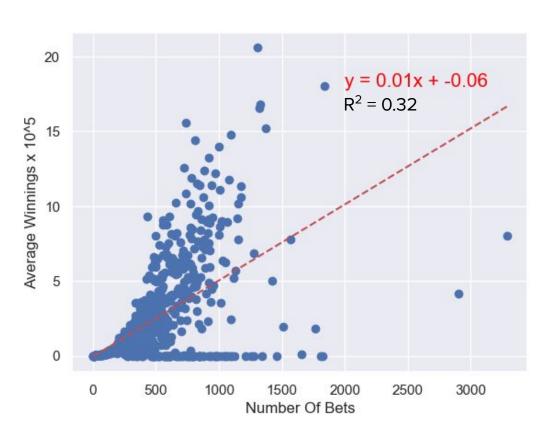

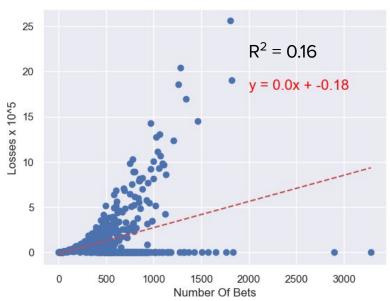

STAKE (£)	
100	
ODDS	
10	
COMMISSION (%)	
2	
LIABILITY:	£900.00
COMMISSION:	£2.00
PROFIT:	£98.00
RETURN:	£998.00

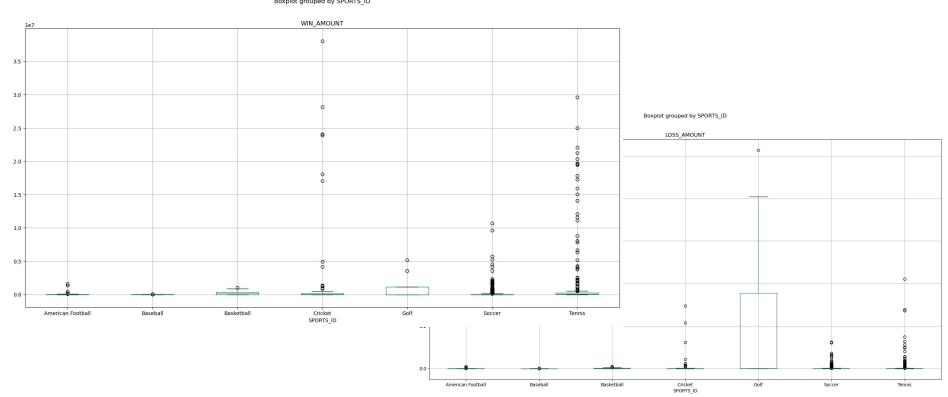

Number Of Bets vs Average Win/Loss

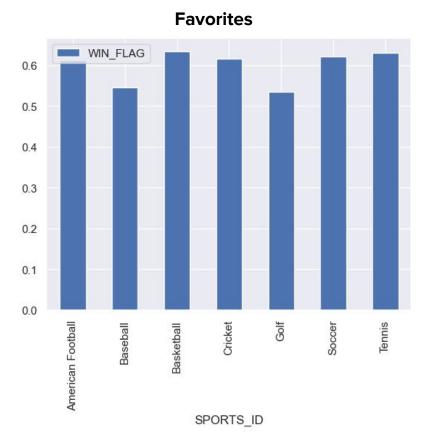

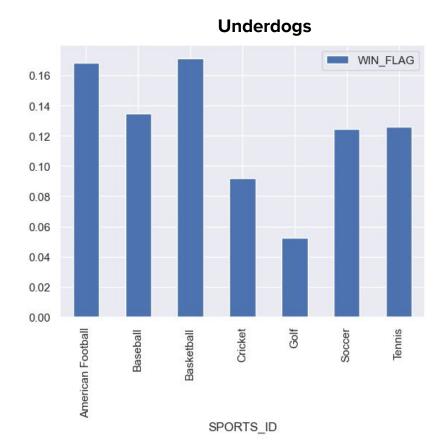

Sport Type Vs Win/Loss Amounts

Boxplot grouped by SPORTS ID

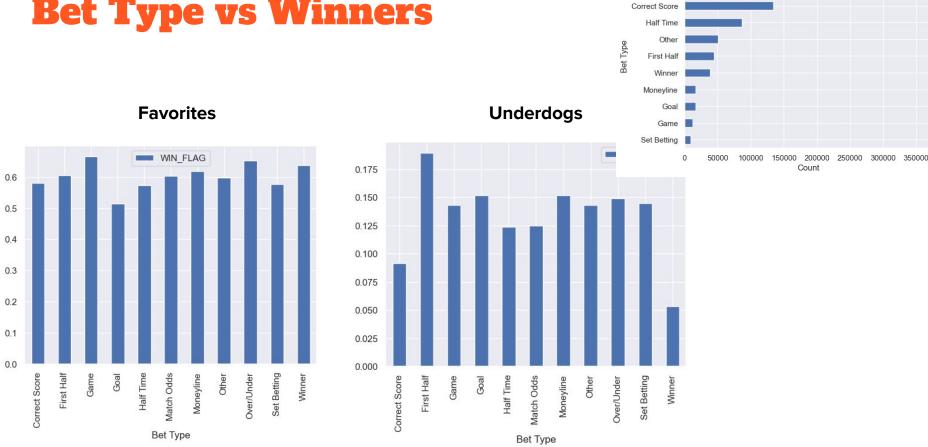

Sports vs Winners

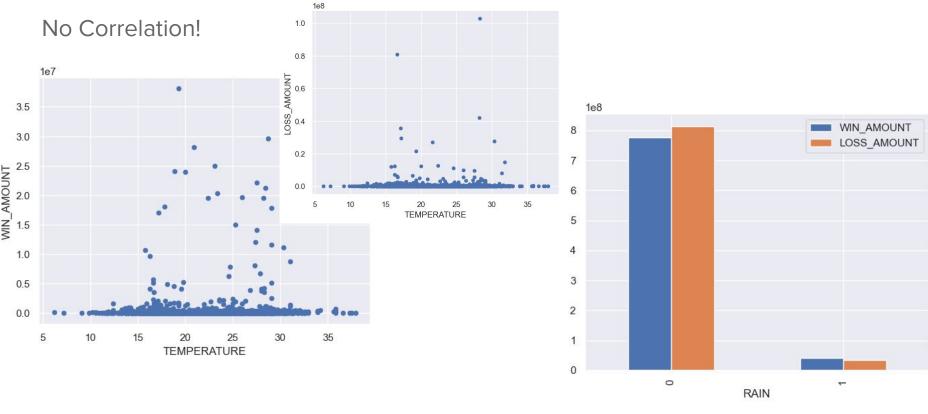

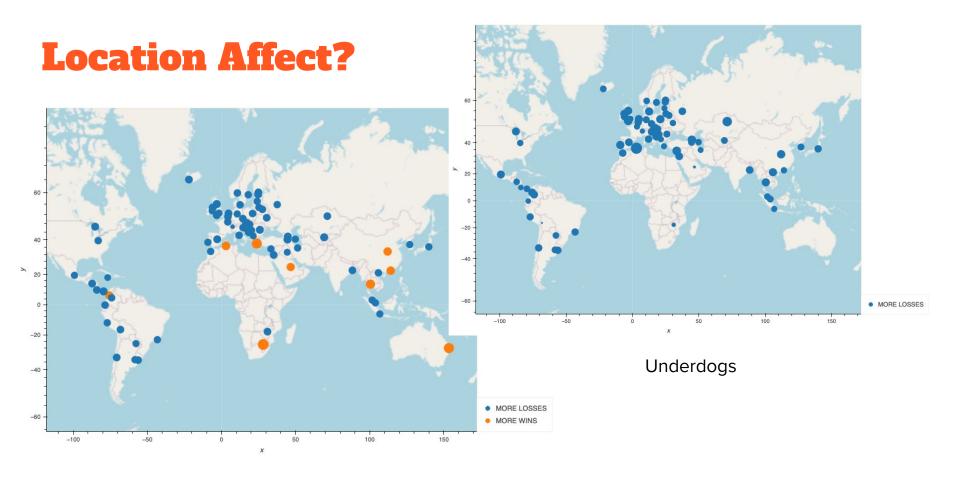

Bet Type vs Winners

Over/Under Match Odds

Weather vs Winning/Losing

Conclusion

- Underdog Bets Are Losing Propositions
- Statistical Significant Difference By Sports vs Money Won/Lossed
- No Correlation between Weather/Location To Increase Chance of Winning Underdog Bets
- Need Bigger/More Recent Datasets and Machine Learning Models
